**BY WILL P. ALLEN**

Hello! And thanks for downloading my complimentary guide to “easy, fast, and hassle eBay profits.”

Before we get started, let me briefly introduce myself...

My name is Will P. Allen. The “P” stands for Patrick (in case you were wondering). I’m a work-from-home dad of 2 small kids. My wife is a professional Speech Language Pathologist. We (currently) live outside of Portland, Oregon.

I started working online many years ago. 2006 to be exact. And In the beginning, I worked mainly with Google AdSense. But over the years, and after trying just about every method for making money online, I found affiliate marketing, digital information product publishing, and eBay flipping to be the most profitable ventures (and the most fun!).

This guide you’re reading now is going to focus only on eBay “flipping” (*I’ll explain what “flipping” is in just a moment*).

And after flipping now for several years, I have developed a simple process for making fast and hassle-free profits on eBay.

The process can be learned by anybody. You don't need a website. You don't need a lot of money. You don't need to have any special skills.

So, without further to do, let's get into it...

## What Is “Flipping”?

*“Flipping” is another word for selling. It means you buy something and then sell it on eBay for a higher price. It's simple. There's nothing complicated about it.*

You don't need to build a website, you don't need to be technically savvy, you don't have to spend a fortune, and you don't have to wait very long at all to start seeing results. Seriously, if you started today, you could technically see a profit by tomorrow!

And it's a really fun way to make money. You can approach it as a hobby or as a serious pursuit that could eventually replace a 9-5 income. I know quite a few people that sell on eBay full-time. And they make a very good living at it.

I have two small kids, and my wife works full-time so I don't spend as much time flipping as I could. It's more of a part-time gig for me. Still, even though I only work part-time, I make enough money to pay bills, buy groceries, and build up our savings.

## How Flipping Works

*It's very simple. All you need to do is find items that you know are selling and then place them on eBay. If it sounds complicated to you, don't worry, it's not.*

There's nothing mysterious or complicated about it.

I think people assume you have to be a collector or sell things in bulk or wholesale to make money on eBay. But that's just not true.

Many people make good money on eBay selling everyday items that most people overlook as just "junk" or "trash."

## Here's how it works...

1. You visit places that you know sell items for much cheaper than anywhere else (like your local Goodwill store).
2. You browse the shelves looking for items that are in good condition.
3. Once you find an item, you use the eBay app (free to download) on your smartphone to determine if that product is worth selling. If it's worth it, buy it.
4. Take the item home, clean it if necessary, then take a few pictures of it with your smartphone or camera.
5. Upload the pictures to your eBay account.
6. Write a small description about the item (or, if you're lazy like me, just use eBay's auto-fill description).
7. Post it as a live listing.
8. Sell it for a massive profit!

And that's it! The whole process can be done in under an hour (including finding the "junk" and posting the listing on eBay).

***It's REALLY easy and REALLY fun!***

I always have a good time "hunting" for items to sell. Sometimes I even find things I like so much I'll keep them for myself. Just last week I found a really cool pair of rainboots for \$5 (new in the store they sell for over \$150). My wife loves it too, because I always find stuff for her and the kids.

## Conclusion And Your Next Step

I can't express to you enough just how fun and rewarding "flipping" on eBay can be. Seriously, of all the ways I've made money online over the years, this way has the most potential for growth and the most stability. Plus it's just fun as heck!

Now, if you're going to become a "flipper" what should you start working on first?

I recommend that you check out my eBay course entitled **Simple Secrets For Turning “Junk” Into Gold On eBay**. It’s an A to Z breakdown of my entire system. I go into detail on every step I take. Nothing is left out. All questions are answered.

You can check the course out here:

If you don’t want to check out my system, but you still want to “flip” on eBay, I’ll tell you, it is possible. However, there is a learning curve, and mistakes you make can be costly. That’s why I highly recommend you check out my course. It eliminates the learning curve and all but guarantees you turn a profit as quickly as possible.

In my course, I show you...

- How to determine which “junk” to buy. I break it down, so you know what sells and what doesn’t sell. This information can be the difference between success and failure. It took me many months before I got it right (and I wasted a LOT of money before I started to see a profit).
- Where to go to find the best “junk.” In my course, *Easy Flipping On eBay For Fun And Profit*, I reveal my little known sources for stuff you can buy cheap and sell high on eBay.
- How to quickly, easily, and efficiently set up your eBay account, so you maximize your selling potential. Don’t worry if you’re not technically proficient. I show you every easy step, so it’s as clear as day.
- How to quickly and easily “list” your products for sale on eBay. Again, this is an easy process, and in my course, I show you how to do it, step-by-easy-step so you can dramatically improve your chances of selling faster and for more money.
- And much more!

If you've been searching for an easy, reliable, stable, way to make money online that has almost unlimited potential, then this is for you!
